Nevertheless, I will bring it health and healing to it; I will heal my people and will let them enjoy abundant peace and security

Rethink and redefine everything according to the truth. **Natural medicine has always been the gold standard this is traditional medicine the lost and suppressed arts of healing naturally with energy , herbs, oils, minerals, light, and oxygen.**

Most people are misdiagnosed or cursed with medical diagnosis. Medical words that have no meaning or really do not make sense like Parkinson's or Chrohs?? Getting to the root of the problem should always be the goal and healing naturally is the missing chapter in medical books across the globe by design. **This resource guide contains information and protocols from medical Doctors and many other sophisticated sources from around the world. There are natural solutions for every health problem. Natural healing and cures are forbidden knowledge suppressed by the governments around the world.**

This is my disciplan I created as a guide to healthy living. Always consult with a health care provider who identifies the root cause of disease and someone that has a foundation in nutrition.

These people are identified as functional, integrative, naturopaths, or holistic health

I eat one meal a day and sometimes more, it just depends on what I feel like. I avoid sugar drinks but pomegranate juice reduces plaques In blood vessels and I dilute in water.

The apple cider vinegar and the tonic recipe below are good to break down calcified sludge in the gallbladder and other parts of the body. You can find youtube videos but use caution and consult your naturopath or practitioner.

I eat the Sunlight grown chlorella pellets to kill the hunger during the day when my stomach wants food.

If you are not eating, you need to be hydrating throughout the day every day. Wherever you are, you need to have your beverage in reach. If your organs are dirty, you need clean water to rinse them out, a dirty wound will not heal well.

I drink several different blood cleansing drinks that help rinse the inside of the body , mop up toxins kill bugs, and heal my DNA.

Herbs, spices, and plants are used to cleanse the blood of infection and pull out toxins like metal.

Boil spices like star anise, cinnamon, clove, cardamom and make chai tea adding black tea bags to a pot of water boiled on the stove. Drinking any herbal teas or fresh juiced veggies/fruits to flush out toxins & cleanse blood.

Lemon water, Apple cider vinegar diluted in water with raw unfiltered honey daily if you like.

Thyroid/Immune

Iodine and selenium are critical for metabolic function . Please watch Dr. David Brownstein Video Iodine and why you need it.

Amazon sells Lugols Iodine 2% or higher tincture applied to skin or potassium iodide tabs

Everyone needs Iodine & selenium, deficiency will cause low thyroid function and weight gain as well as overall bodily dysfunction and cancer . You will not achieve Hormone balance without adequate iodine. Thyroid is often full of toxic radioactive isotopes, chemicals from the environment like bromide from bread, fluoride, mercury from fillings and vaccines. Thyroid detox may be needed.

Cilantro, chlorella, binders like activated charcoal, diatomaceous earth, fulvic and humic mineral powder. Fulvic and humic acid are mineral and nutrient rich . Sourced from deep in the earth . This will bind to toxins & metal. Chia seeds will also bind toxins

Nano blood cleansing techniques can be done in many different ways. Many people around the world have been misdiagnosed with multiple sclerosis when in fact they are positive for lyme disease and infectious spirochete in the blood. Many disease are caused by infectious organisms found in

Include

Lectins are plant poisons that cause hem agglutination; this causes your blood cells to stick together which prevents oxygen binding. Lectins bind to gut lining and cause problems like overgrowth of bad bacteria.

Many people do well Avoiding dairy, legumes, corn, soy, wheat, gluten, and nightshades because they can be inflammatory for some people. and cause chronic vessels. GMO foods cause to cancer and destroy the gut microbiome because fungus is woven into the DNA of the plant.

Brain and neurons are made of fatty acid so if you are trying to regenerate nerves and brain this is critically important.

Bad GMO oils from corn or soy cause inflammation.

Do not consume anything with hydrogenated oil, avoid corn, vegetable & canola oil. These oils will cause acid formation and inflammation and they are GMO which is cancerous. Hydrogenated oils wrap your cells like plastic wrap and prevent proper function.

Conduct your own head to toe scan of the body and ask yourself what are the areas of toxicity or problem

1. **Brain:** Brain fog from mold or other infectious organisms. Vaccines and breast implants can cause auto immune disease. Electromagnetic radiation from wifi and Bluetooth can cause headache, diabetes and cancer .

Common issues with Brain, lyme disease, severe fatty acid deficiency, amino acid deficiency, mold toxicity, vaccines, heavy metals, roundup AKA pesticide glyphosphate, , chemicals, dyes in food. MSG a is nerve toxin.

2. **Mouth:** dental metal amalgam is mercury, root canals leak anaerobic bacterial poisons into the blood stream and their waste produces highly toxic biofilms that cause plaque to build in blood vessels

The Forensic Nurse Rachel Celler, RN

Fisher of men ministry.org

3. **Respiratory**: Heavy metals from the air, lack of deep breathing, parasites, mold, benzene chemical, fibrosis, cancer from vaccines.
4. **Thyroid deficiency** of iodine and selenium toxic thyroid from fluoride, bromide in bread, heavy metals from metal fillings.
5. Breast health: Iodine is critical to preventing cancer and necessary for removing poisons from the body. The larger the breasts, the more iodine is needed. You are deficient until proven otherwise Under arm antiperspirant contains aluminum contributes to metastatic breast cancer that spreads
6. **Heart**: iodine deficiency, low potassium, magnesium, deficiency CoQ10 deficiency of B vitamins from blood pressure drugs or metal/mineral imbalance.

The Forensic Nurse Rachel Celler, RN

Fisher of men ministry.org

7. Under arm antiperspirant contains aluminum contributes to breast metastatic breast cancer that spreads
8. Abdominal fat from insulin spiking and adrenal fatigue/cortisol production and (WIFI) causes diabetes and cancer.
9. Gut dysbiosis is too many bad bugs and fungus and not enough good. Antibiotic use, genetically modified foods like wheat, corn, and soy. Constipation and toxin build up. Vaccine injury and heavy metals in gut lining.

Environmental sources of toxicity:

Electromagnetic Radiation from **WIFI, Bluetooth, cell towers**, power lines from fit bit, **apple watches** or any other **Bluetooth devices** worn on the body cause disease. Keep wifi far from sleeping areas and turn off at night. Kill switches can be purchased from Klinghardt academy.

Drinking water can be contaminated from heavy **metals**, **glyphosate** AKA **roundup** and many other unknown chemicals. Reverse osmosis water systems offer the most elimination of these toxins. Distilled is good for detox but you must replace lost minerals it will pull out by adding pink salt . Bottled water contains micro plastics that disrupt the hormone system. Xenotoxins are estrogen mimickers found in plastic. Alkaline water systems only change the PH in water and do not filter out these items. The pH Scale

The goal is to raise the bodies overall oxygen

concentration through alkaline higher than 7 PH. The first is daily deep breathing while stretching to release toxic energy and increase oxygen to tissues and organs by expanding the lungs. Inhale air into lungs until full, holding for 2-3 seconds then exhaling for 10-15 minutes while stretching on the floor or bed.

If you have low iron, you will have low overall oxygen in the body. Iron is needed to make hemoglobin and you need this to bind oxygen.

Balance of Sodium/ potassium ratio in the cell is what prevents cancer and disease . The key is to have more potassium and less sodium. Pink salt contains 84 different minerals and should be used. Morton salt has potassium iodide but now contains dextrose so this is not good but we need iodine/iodide very much. Potassium iodide

The Forensic Nurse Rachel Celler, RN

is vital and every home should contain lugols iodine liquid solution. iodine is essential to metabolic and overall health. Healing with light has a profound effect on the body. I personally use red LED and infrared light panel.

The Forensic Nurse Rachel Celler, RN

Fisher of men ministry.org

When different colors of light like infrared and RED led hits the skin the photons or particles of light are absorbed into the blood just like a plant taking in energy from the sun. This increases oxygen and modulates the blood and immune system by turning off signals and chemical reactions of inflammation and cancer formation due to incorrect signals in the blood such as B lymphocytes building a tumor in the neck .

1. This type of light will reduce thick blood or hyper coagulation related to clotting disorders.
2. This light will help with reducing high cholesterol layer around blood cells.
3. Reduce hypertension high blood pressure
4. Reduce high blood glucose levels by repairing and restoring proper function of cell membrane function allowing glucose to enter the cells
5. The red led light will reduce inflammation and pain as well as stop histamine response from allergies

You can buy nasal rhinitis light or the red led wrist light fairly cheap on ebay or amazon. Also the infrared light bulb and metal hang
