What do the Insignias Mean?

 Graduate Dr. Frank Shallenberger's Ozone Course	Ozone Practitioners: Physicians with the medical insignia beside their name have attended the Ozone Therapy Certification Course taught by Dr. Frank Shallenberger. Dr. Shallenberger has been teaching this Ozone Therapy Course for over 18 years to physicians and practitioners from around the world. This course is the most comprehensive ozone course offered in the world, and the only accredited Ozone Therapy Course in North America. The course is certified by the AAO - American Academy of Ozonotherapy. If you wish to learn more or attend this course please click this website link http://www.ozonecourse.com/ . If you wish to learn more about the American Academy of Ozonotherapy please click here: AAO
 DDS ACIMD Certified Ozone Dentist	Ozone Dentists: We are pleased to adding "Ozone Dentists" to the Ozone Doctor Listing. Dentists with this insignia beside their names have been trained, certified, and approved by the ACIMD - American College for Integrative Medicine and Dentistry. Infections in the mouth (Oral Cavity) are very difficult to address through traditional methods such as antibiotics. "Ozone Dentists" have found the ozone can be used to prevent and resolve virtually all infections in the mouth such as periodontal disease, root canals, bone infections, and can even heal cavities (with little or no drilling!). Any Dentists wishing to receive training and certification should contact the ACIMD through their website www.ozonefordentistry.com . The ACIMD Ozone in Dentistry Certification Courses are approved of by the AAO - American Academy of Ozonotherapy.

Specialty: Ozone, Accupuncture, Chinese Herbs, Spinal Manipulation Therapy (Chiropractic), Nutrition
Holistic veterinary medicine integrates both conventional and alternative (complementary) therapies to treat your pet. It is the umbrella that encompasses many different therapies such as acupuncture, spinal manipulation therapy (chiropractic), homeopathy, herbal therapy and nutrition. The development of a treatment protocol takes into account the whole picture of the patient, environment, disease patterns, diet and the relationship with the owner. Dr. Robinson strives to use the least harmful, least invasive and most efficacious path to help heal your pet. Your pet will receive a unique, individualized treatment and care plan that is designed for his/her health care needs.

Tel: (925) 284-2203 **Fax:** (925) 283-9436

Specialty: Ozone Dental Protocols as instructed and certified by the ACIMD - American College of Integrative Medicine and Dentistry. Everyone is welcome to Dr. Ruefenacht's clinic in beautiful Lafayette California. When asked about being a dentist, Dr. Ruefenacht's response is "I love dental health care. I love providing new and and better ways of doing things". Dr. Ruefenacht describes his practice as follows:

"I have a broad general practice serving 3 year old patients to 93 year olds in Lafayette. Common to all ages is the desire to be treated as a person, not a patient, and to be in control. You give me permission to explain everything I see and understand your dental health. You have the right to choose among treatment options, when to proceed, or not. You'll also understand the risks and benefits for any given procedure. Questions are required! We will perform tests to ensure that the chosen treatment option is the right choice for you. It is my goal to ensure that you will have the comfort of understanding the procedures you have chosen. Ignorance is not bliss! I love the intellectual challenge of learning emerging treatment modalities and the resultant improvement in care for us, the patients. Yes, I am a patient too. I love providing new and better ways of doing things. While the tendency is for greater specialization, and narrower scope, I firmly believe in knowing as much as possible about as many things as possible to better understand you and to provide as many services as possible. I have three great co-workers to help me do this. Norma welcomes you and sorts out all of the confusing insurance while Debbie and Heather provide superb people skills while assisting in your solutions. We look forward to getting to know you."

This narrow-minded, blanketed approach to medicine unfortunately neglects alternative therapies which quite often empower the body to act as its own self-healing mechanism. Understanding why, not just how, your body is reacting to illness and disease, is key to targeted treatment and prevention of future symptoms. If you are frustrated with traditional medicine and the same predictable textbook treatments, we invite you to consider Sound Clinic for a new holistic approach to your health.</p>

(ACAM Certified in Chelation and IV Therapy, 1996). Dr. Manganaro became Board Certified in Internal Medicine in 1999. He then went into private practice as an Internist for fifteen years. During that time he went on multiple trainings in holistic medical techniques which he progressively incorporated into his practice. The impetus to do this was his belief that more could be done for his patients and a desire to help people on emotional / mental / spiritual levels besides the physical level. He feels that approaching a person who is not at ease (a person in dis-ease) at all of these levels will bring about a more complete and longer lasting result. Manhattan Advanced Medicine is a holistic, complementary practice of medicine which takes under consideration all aspects of the human being; the physical, emotional, mental and spiritual.

As a natural medicine specialist, I see patients for specific health concerns. I specialize in women's health (PMS, menopause, fertility, endometriosis, etc.), bio-identical hormones, digestive issues, environmental medicine and auto-immune disease. I often see patients who have mystery illnesses. As ND primary care physician, I offer an integrative practice. I choose natural remedies first but feel comfortable prescribing pharmaceutical medications when they are needed. I do routine physicals and refer to specialists as needed. I provide acute care for established patients. I love to be an on-going medical resource for my patients.

We treat PEOPLE not diseases. Even if various people have been given the same diagnosis, the makeup and biology of each PERSON is unique, just like their fingerprints. Their condition represents a different disease state that will respond differently to various therapies. The point is to explore all angles till one gets a favorable result in a particular individual.</p>
	<p>Dr. Donald Robbins DMD BioSafe Dentistry 340 North Pottstown Pike Exton PA 19341 USA Tel: 610-363-7798 Web Site: www.DonaldRobbinsDMD.com Specialty: Dental Ozone Protocols as instructed by the ACIMD - American College of Integrative Medicine and Dentistry. Dr. Donald Robbins DMD developed safe, biocompatible dental office protocols outlined in his book "The Toxic Dental Office". We use Ozone for many procedures including: 1/ Treating a tooth before placing fillings or porcelain restorations to reduce sensitivity and infection. 2/ Preparing a tooth before placing non-fluoride sealants to stop future decay under the sealant 3/ Non-surgical treatment of periodontal (gum) disease to avoid possible surgery 4/ Nasal and lungs ozone therapy which assists the body against allergies / asthma and ear and sinus infections / congestion We use No Fluoride in our office because it is toxic and damages adult's and children's health. We use no Mercury fillings or metal crowns. We remove old mercury fillings with protective procedures so patients are not exposed to toxic mercury vapor. Our BioSafeDentistry protocols help prevent health reactions when metal fillings are removed improperly. Patients are given supplements to support their immune system and prevent absorption of the mercury into their body tissues. Digital XRays are taken which can reduce radiation to the patient by as much as 80%. We perform a unique, safe, biocompatible root canal treatment that kills all the bacteria in the tooth, insuring a successful and comfortable result.</p>

Dr. Roeder DMD is fully educated through the ACIMD - American College of Integrative Medicine and Dentistry regarding the use of Ozone in Dentistry. His Dental Practice focuses on Holistic Dentistry. Holistic Dentistry considers the "whole person" relative to oral health and dental disease by addressing underlying causes versus merely treating symptoms alone. Traditionally, the holistic approach takes into consideration the impact of things like diet, nutrition, stress, lifestyle, family history. Preventive Dentistry is concerned with keeping your teeth and gums healthy for a lifetime by providing the information and tools necessary to prevent oral disease.</p>

Ozone Therapy Doctors and Clinics - Washington

**Dr. Jim Coleman DDS**

Seahurst Dental Design PLLC
1800 SW 152nd Street, Suite 202
Burien WA 98166 USA
Tel: 206-242-4477 Fax: 206-242-1438

WebSite: www.JimColemanDDS.com

Specialty: A general dentist who uses ozone for tooth desensitization, caries reversal and tooth remineralization, which often avoids the need for fillings. He now uses ozone in conjunction with all restorations, non-surgical gum treatments, and extractions to ensure only the best outcomes. Other applications include treatment of yeast infection (thrush mouth), canker sores (aphthous lesions), fever blisters (herpetic lesions) and oral warts. Dr. Coleman uses Ozone / Oxygen gas for single tooth insufflations or full mouth treatments using specially made 'trays'. He uses ozonated water in all operatories, to eliminate all bacteria and viruses from the water lines and also those coming from your mouth during treatment. This makes for a safer, healthier, germ free dental environment for you and for office staff. Ozonated olive oil jars are stocked for topical home use. Dr. Coleman was introduced to dental therapies by Julian Holmes in 2006 and then received further training from William Domb, and from the [American College of Integrative Medicine and Dentistry](#).
